

Dr Simon Taggart

Bio

Simon is a consultant chest & general physician and expert witness since 2000.

In relation to medicolegal work, Simon specialises in asbestos lung disease, clinical negligence and life expectancy and each contribute equally to Simon's annual workload.

Simon works exclusively in the private sector having retired from NHS in 2022 and holds 3 clinics per week.

The majority of Simon's time is spent dealing with medicolegal practice
